### Principal's Message

Dear Parents and Students,

We believe that to be ready for the careers of tomorrow you must start your preparation today. That is why our motto is *Your Tomorrow Starts Today!* The careers of tomorrow do not happen by accident. It takes planning; a well-rounded education, motivation, a focus on achievement and knowledge of tomorrow's global marketplace. For example, the energy industries of Houston-Galveston and the Gulf Coast area need professionals with college degrees in mathematics, the sciences, engineering, and technology. In addition, careers in environmentally-friendly or green energy is emerging to combat and solve the threat of global warming. Alongside our educational partner Houston Community College-Northeast, we plan to use our educational resources to prepare students to solve the challenges of today before they become the problems of tomorrow.

If accepted into North Houston Early College High School, be prepared for...

- Accelerated instruction in a small school environment;
- An impressive faculty, experienced in college preparatory instruction;
- College coursework in your 10th or 11th grade year;
- Graduating from high school with up to half of your college degree complete and tuition-free

Now it is time to put the preparation for your future career into action. Complete the following application and submit the requested documentation. Qualified applicants will be contacted to schedule an admissions interview. Enrollment is limited so apply now. *Your Tomorrow Starts Today!*

Sincerely

Tonya Miller, Interim Principal
